

DNOS ART & INK CAVE - Tattoo Aftercare Instructions

Location: 12634 IN-23, Granger, IN 46530

Initial Healing with Saniderm:

- Leave Saniderm on for 24-48 hours (your artist will advise).
- If fluid builds up or it starts peeling, you can remove it earlier.
- To remove: Peel off gently under warm running water.

Cleaning & Moisturizing:

1. Wash your hands thoroughly.
2. Gently wash the tattoo with fragrance-free antibacterial soap and lukewarm water.
3. Pat dry with a clean paper towel - never rub.
4. Apply a thin layer of ointment 2-3 times daily for 7-14 days. Recommended ointments:
 - Hustle Butter (available on Amazon or Ulta Beauty)
 - Cold-pressed coconut oil (natural alternative)
 - If a rash occurs, use A&D ointment.

Important Healing Tips:

- * Keep tattoo clean and moisturized
- * Wear loose, breathable clothing
- * Stay hydrated and eat well - promotes faster healing

x Do NOT:

- Scratch, pick, or peel scabs
- Submerge in water (baths, pools, hot tubs, lakes) for 2 weeks
- Expose to direct sunlight or tanning beds (until fully healed)
- Use alcohol or peroxide on the tattoo
